Subject: Dimock - Isotech Data

Jeanne,

As we discussed, you will find the Isotech data for Dimock attached for use in ORD's study. The files are not large so we decided to just send them via email. Since you may also find it useful to view all the Dimock data we have also included below some user name/password information to access the SCRIBE database. We believe Ralph Ludwig already has access to SCRIBE and just needs this password to see the Dimock data. However, if anyone else from ORD needs SCRIBE access, they can just contact John Gilbert with EPA's Environmental Response Team in Erlanger, KY. John can be reached at gilbert.john@epa.gov or via cell at 513-607-1571.

Ex. 6 - Personal Privacy

This allows you to have a read only file. Anything that is changed in here, will not be changed in the original database.

Attached are three files. The excel version has all the Isotech data in 2 Sheets; Sheet 1 is as it would look in a residential report while Sheet 2 is the Isotech data that has been cross tabbed. The other two files are pdf versions of the two sheets from the excel document.

Should you have any questions, please do not hesitate to contact me.

Thanks,

Ron.
